PROFESSIONAL SUMMARY

Software Engineer and AWS Cloud Engineer with hands-on experience in backend development, cloud infrastructure, and API-based systems. Strong focus on building reliable backend services, supporting cloud deployments, and working with modern deployment strategies across AWS and Google Cloud Platform. Passionate about creating secure, maintainable solutions and continuously improving technical skills while collaborating with cross-functional teams.

WORK EXPERIENCE

PerfAI, Riyadh, Saudi Arabia | DevOps Engineer December 2025 – Present

DevOps Engineer focused on building, integrating, and maintaining backend services, supporting cloud infrastructure, and developing secure RESTful APIs using Flask. Works closely with business teams to translate requirements into reliable backend solutions that support system integration and operational efficiency.

Barakah, Jeddah, Saudi Arabia | DevOps Engineer April 2024 – August 2024

Streamlining DevOps processes, managing cloud infrastructure, and supporting agile development workflows to enhance system efficiency and scalability **AlfaCare Company, Saudi Arabia | AWS Cloud Engineer**

August 2022 – August 2024

Developed applications in an agile environment, automated processes, and implemented AWS services (EC2, S3, RDS, ECS, Elastic Load Balancer, Auto Scaling). Contributed to software release strategies, CI/CD pipelines, and Docker container deployments for Microservice Architecture, orchestrating clusters with Kubernetes and Docker

Puritec Company, Saudi Arabia | AWS Cloud Engineer November 2021 – May 2023

Developed applications in an agile environment, automated workflows, and implemented AWS services (EC2, S3, DS, ECS, Elastic load Balancer, Auto Scaling). Built CI/CD pipelines and managed software releases

Coding Dojo, Online | Cloud Computing Trainee

August 2021 – November 2021

Gained hands-on experience with CLI Cloud SDK tools, deploying Compute Engine and Google Kubernetes Engine resources, and configuring VPCs, IAM permissions, and application traffic splitting. Enhanced skills in monitoring and logging with the Stack driver Agent and overall proficiency in cloud technologies

QUALIFICATIONS

Master of Information Technology | Deakin University, Melbourne, Australia 2023–2025

Bachelor of Information Technology | Victoria University, Melbourne, Australia 2019-2021

SKILLS

Technical Skills:

Programming: Python, SQL, JavaScript

Formworks: Flask, Django, Nodejs

Query Systems: Unix/Linux, Windows

Cloud Services: (AWS: EC2, S3, RDS, ECS, ELB, Auto Scaling, etc.)

DevOps: Docker, compute engine and CI/CD **Personal Skills:**

Clear and effective communication

Analytical and critical thinking with problem-solving
