🔗 Portfolio

PROFILE

Product Designer naturally drawn to problem-solving through thoughtful design. I enjoy creating usercentered solutions that are both effective and intuitive. With experience across various industries, I always strive to balance user needs with business objectives. Every challenge is a chance to learn, collaborate, and make a real impact.

PROFESSIONAL EXPERIENCE

Product Designer

Tremoloo

01/2026 – Present

PrefAI, Riyadh

- Designed and optimized **AI apps, SaaS platforms, and responsive websites**.
- Conducted **user research and usability testing** to identify pain points and improve user experience.
- Created **wireframes, prototypes, and user flows**, translating business requirements into user-centered solutions.
- Worked with existing **design systems, style guides, and variables** to ensure consistency and scalability.
- Worked closely with cross-functional teams to ensure **design outputs effectively addressed user needs** and aligned with business goals.

UI/UX Designer

Baianat

06/2022 – 01/2023

Damietta, Egypt

- Completed **training** in design systems, wireframing, and prototyping before moving to real client mobile projects.
- Designed and optimized **mobile applications** with a focus on usability, accessibility, and user-centered design.
- **Conducted usability reviews** and improved user flows, wireframes, and highfidelity prototypes for mobile experiences.

Freelance UX/UI Designer

12/2020 – 01/2022

- Created user-centered designs, from research and wireframes to high-fidelity prototypes.
- Delivered intuitive and visually engaging interfaces for diverse clients.
