Portfolio

PROFILE

Frontend Developer with over 3 years of experience, mainly using **Angular**, and strong skills in **manual testing** and **automated testing** with **Cypress**. Experienced in building responsive, user-friendly web applications and working with APIs to connect frontend and backend systems.

Comfortable turning **complex designs** into clean, interactive interfaces, and improving app performance and usability. Skilled in writing test cases, finding bugs, and helping ensure stable, high-quality releases.

Works well in **Agile teams**, communicates clearly, and always aims to follow best practices. Quick to learn and stay updated with the latest tools and technologies in web development and testing.

• Work Experience
